OUR RECOMMENDATION:

JOKER 6-11

When it comes to professional cooking and baking, the JOKER is available for everything. We provide an individual solution for every location to offer healthy and light meals or snacks during travel breaks.

MODULARITY

Whether it's a basic version or a complex all-rounder - you can configure the JOKER to make it your right fit. Control module, fresh steam system, cleaning system - the choice is yours.

DESIGN

If there is such a thing as the art of omission, we have perfected it with the JOKER. Form follows function. Clear edge. Confident style. And enough room for your individual touch.

CAPACITY

The new JOKER is pure efficiency in its footprint / cavity volume ratio. Maximum use of space with minimum external dimensions. With a cavity of 44 cm width and 40 cm height, the JOKER offers you plenty of space for baking and cooking - and is also absolutely stylish.

FLEXIBILITY

Maximum performance with minimum effort, as well as ease of use. You know exactly the best position to control your JOKER. So just configure it like that.
