## 100% Ecological Gas (STANDARD)

Icematic commitment for environmental protection leads to design ecological machines with natural gas R290.

This refrigerant grants low consumptions, more efficiency and maximum respect for the environment.

The use of no CFC and HCFC assures a minimum environmental impact (GWP 3).

## BRIGHT CUBE

A full and structured ice cube, with rounded surface for a prolonged beverage cooling.

Its particular transparency is highly appreciated in any context of use.

Compact and transparent, this ice is extremely elegant and efficient for various exigencies: ice buckets, cocktails, aperitifs and whisky on the rocks.

The Cherry series electronical management system allows complete access to all functions and service setting of the machine, by a simple touch on the capacitive control panel.

Cherry series icemakers grant a high production capacity, despite their compact dimensions. A very essential design, for an easier placement in every single context.

## ACCESSORIES & OPTIONALS

### Removable Air Filter (STANDARD)

Special external filter that can be easily removed and cleaned to help avoid impurities accumulating inside the icemaker.

### Drain-pump Kit (OPTIONAL)

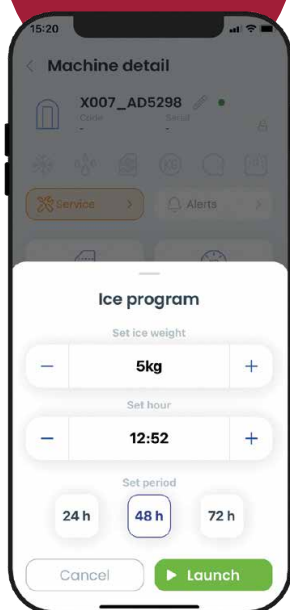

External drain pump kit, compatible with all icemakers of the range.

### Cleaning Kit (OPTIONAL)

Cleaning kit including a plastic container for the correct dosage of citric acid and a citric acid package of 1 kg.

### APP MY ICE AS STANDARD

### MY ICE APP (STANDARD)

The My Ice app grants the possibility to have full control of each single machine, via Bluetooth/ Wi-Fi.

Icematic is proud to introduce the patented system for ice programmable production with this innovative app.

Through My Ice app, you can start your production cycles for a very defined and programmed quantity of ice, selecting the time when you want it available for use.

These pluses are a true added value to optimize production, while minimizing wastes and providing always freshly- made ice, avoiding the risk of bacterial proliferation.

Through My Ice app, you can start your production cycles for a very defined and programmed quantity of ice, selecting the time when you want it available for use.

Additionally, it is possible to remotely control the current status of the machine, and adjust the storage capacity, with no need to touch or open the machine.

**Managing your ice is a matter of touch on your smartphone, it has never been easier.**
