

SERIE 700

Code CR0983759

Model 70GL/G800

LAVA ROCK GRILLS TOP VERSION

General Features

The 700 BARON line is made in compliance with strict European Standards in terms of safety, hygiene, reliability and respect for the environmental and is certified under international standards such as CE, GOST, AGA and others. Stainless steel with scotch-brite finish heightens the aesthetic appeal, and the technological and ergonomic innovation of this equipment. Thanks to great compositional flexibility, cook tops can be matched with oven bases and accessorised with hygienic finishes. Customised line-ups are possible by combining and fixing the equipment back to back, flushed sideways with perfectly sealed connections, or by creating "bridge" structures, offering top solutions to any chef.

Basic range features:

- 2" height adjustable stainless steel feet.
- removable control panel for access, moulded and shaped to avoid withholding dirt.
- recessed, tilted and ergonomic knobs.

CHARGRILLS

Lava stone grilles are recommended for grilling meats, fish and vegetables, which thanks to the heat from the radiation of the lava rock, give off that typical aroma of grill cooking.

Technical/functional characteristics

- 2 height adjustable stainless steel cooking grille.
- Removable drawer for fat collection.
- Heating obtained via high power stainless steel burners powered and controlled by valves for gradual power adjustment.
- Piezo ignition.
- Standard meat grille, cast iron fish/meat and fish grille available as accessories.
- Inert volcanic lava with radiant features compatible with food.
