**Code** CR0785569 **Model** 90TPF/EE800

## ELECTRIC SOLID TOP ON ELECTRIC OVEN

### General characteristics

The 900 BARON line is made in compliance with strict European Standards in terms of safety, hygiene, reliability and respect for the environmental and is certified under international standards such as CE, GOST, AGA and others. Stainless steel with scotch-brite finish heightens the aesthetic appeal, and the technological and ergonomic innovation of this equipment. Thanks to great compositional flexibility,

cook tops can be matched with oven bases and accessorised with hygienic finishes. Customised line-ups are possible by combining and fixing the equipment back to back, flushed sideways with perfectly sealed connections, or by creating "bridge" structures, offering top solutions to any chef. Basic range features:

- 2 mm thick moulded tops;
- 2" height adjustable stainless steel feet;
- removable control panel for access, moulded and shaped to avoid withholding dirt;
- recessed, tilted and ergonomic knobs.

### SOLID TOPS

With its high performing central burner, the gas solid top has different heating zones, with a heat concentration that decreases towards the peripheral area, allowing for slower cooking or to keep food warm. It is available in full or half modules and is combined with gas burners or completely electric.

### Technical/functional characteristics

- Cooking plate in polished chrome-molybdenum 1.8 mm thick, high temperature resistant, and suitable for direct cooking.
- Perimetral fat-collecting channel with drain to floor
- Griddle heating (4 zones) via four 4 Kw heating elements;
- Heating elements temperature adjustment via thermostat, activated via tilted and recessed ergonomic knobs.

#### Electric oven

- Stainless steel heating element units positioned at the top and below the cooking area base plate;
- Thermostatic control of range temperature from 100°C to 300°C;
- "Powered appliance" indicator light;
- "Set temperature reached" indicating light

### Technical Data

Dimensions	
Width (mm)	800
Depth (mm)	900
Height (mm)	870
Gas connection (Ø)	-
Electric connection (V/~ /HZ)	400
Cold water connection (Ø)	-
Hot water connection (Ø)	-

Cold soft water connection (Ø)	-
