

ELECTRIC BAIN-MARIE - TOP VERSION - 1 x GN1/1

650 SERIES

A line of compact cooking appliances, designed for people who do not want to give up on high performance, even in small spaces.

Made of AISI 304 18/10 stainless steel, elegantly finished with Scotch Brite satin finish, it has rounded edges and capacious recessed areas; it is 600/650 mm deep and has a modular width of 400/600/700/800/1000 mm; the series comes complete with open base supports, with cupboards or refrigerated bases.

The appliances can be easily put together to build a unit, that is compact, without any gaps thanks to a covering profile that guarantees protection against leaks and therefore excellent hygiene. High flues, ergonomic knobs mounted on a sloped control panel for better visibility, make this range easy to use from the very first time. All models are CE-approved.

Technical / functional characteristics

The installed power for the electric bain marie ensures that the heating capacity of the appliance is reached rapidly and the preselected operating temperature is maintained.

The tank is designed to contain Gastro Norm containers up to a 150 mm high and is sloped towards the front to allow water to flow out correctly from the drain tap located on the front of the machine.

The appliance is equipped with a safety thermostat, adhesive heating elements and a light signalling the heating function. The temperature can be adjusted with a thermostatic control from 30 to 90°C.

DIMENSIONS	
Width (mm)	400
Depth (mm)	600
Height (mm)	295
Gas connection (Ø)	
Electric connection (V/~ /Hz)	220-240V 1N
Cold water connection (Ø)	
Hot water connection (Ø)	

Cold soft water connection (Ø)	
Drain (Ø)	
Gas power (Mj/hr)	
Electric power (kW)	1.0
Plate dimensions (mm)	
Tank capacity (L)
