

Electric Plancha

Two types of healthy and versatile ways to cook. Direct or indirect cooking with 4 independent zones and a system for continuous temperature adjustment. Heat does not dissipate due to the contact surface made from chrome molybdenum steel.

Maximum temperature 400°C

Grease trough with drain hole and fully removable grease and food residue drawer.

Two types of healthy and versatile ways to cook. Direct or indirect cooking

4 independent zones and a system for continuous temperature

Internal drawer to collect grease and food residue drawer
