VALID AS OF 1ST OCTOBER 2025

# ICEMATIC

## THE WORLD LEADERS OF ICE MACHINES

---

CastelMAC, the manufacturers of the Icematic, is a company specialised in professional refrigeration, known as one of the leaders in the production of ice makers. One of the key reasons for this is their understanding of the importance of ice to any number of businesses.

The company, through technical innovation and the adoption of the most innovative technical solutions, is one of the most important world players in the Horeca market.

From hotels, restaurants, bars, supermarkets and fast-food outlets, to hospitals, laboratories, fisheries and food processing facilities, Icematic machines play a crucial role in the success of each operation.

In an increasingly competitive and dynamic market, CastelMac holds product innovation as its main objective, and is always ready to accommodate and satisfy even the most sophisticated needs of its customers.

These the characteristics that make CastelMAC one of the biggest world players in the professional ice machine sector.

### 4 NOTES

All models supplied standard as air cooled (A), can be supplied as water cooled (W) on request only.  
Please note production of ice is measured with an ambient temperature of 21°C and water temperature of 15°C.  
Production may fluctuate based on both ambient and water temperatures.  
Water filters are recommended - see terms at [www.scotsice.com.au/terms](http://www.scotsice.com.au/terms)
